

A puzzle game for one or more players

Components

Each player will need

- 20 tetromino pieces
- 1 6x6 *solving frame* in their player color.

You will also need

- 18 domino pieces
- 1 6x6 *setting frame* in another color to be shared by all players.

Gameplay

1. Randomly fill the setting frame with domino pieces to make a *pattern* of dots.
2. Use your tetromino pieces to recreate the pattern in your solving frame. The first one to do so, wins!
